

PRESENTS:

UNISOLE™

ONE BOOT TO FIT THEM

ALL

Stop sizing. Start inflating.

Introducing the **UNISOLE™** Hazmat Boot—the first and only all-size tactical footwear solution designed for foot sizes ranging from hobbit to yeti. Using our patented **InflatoFit™ System**, users simply slide their foot into the boot and inflate it using any standard air compressor, SCBA tank, or bicycle pump. The boot expands, conforms, and cushions like a foot-hugging zeppelin.

Why carry 14 different boot sizes on a hazmat truck when you could carry just one—and a tire gauge?

Product Features

- **Universal fit:** Works for sizes 5 through 15, and maybe beyond. We didn't test it.
- **InflatoFit™ Liner:** Self-adjusts via internal air bladder system.
- **Dual-mode inflation:** Choose from **Precision Fit** or **Panic Mode**.
- **PetPak™ Compatible:** Optional animal insert lets you adapt UNISOLES for dogs, cats, or ferrets.

Technical Specs

- **Inflation Range:** 0–125 PSI (comfort not guaranteed above 90)
- **Material:** Outer shell constructed of rubberized ballistic neoprene with thermoelastic flex-shielding.
