PRESENTS:

# LEVEL A, DA™

**All Hazmat Techs Welcome. Mobile or not.**

Why should mobility impairments stop you from responding to the world's most dangerous chemical events? Introducing **Level A, DA™**—the first fully encapsulated hazmat ensemble designed to accommodate crutches, wheelchairs, slings, and occasionally, common sense.

Rather than adapt the world to your needs, we simply shove everything inside one big, sealed bag of chaos—because it's not about the responder, it's about the suit.

## Product Features

- Internal Chair Chamber – Wheelchair? **Inside**. Crutches? **Toss 'em in**. Functionality? **Absolutely not**.
- **Self-Balancing Suit Drift™** – Moves roughly in the direction of your intent, assuming a slight incline.
- Accessory Portals – Integrated glove sleeves for slings, casts, or your third attempt at tying your boot.
- Powered Air Assist – Designed to inflate the entire suit plus your medical equipment, creating a Michelin-Man-meets-Medical-Marvel aesthetic.

## Compatibility

- Wheelchairs (manual or power, both equally nonfunctional inside the suit)
- Knee scooters
- Full-arm slings (one-handed tool use sold separately)
- Unicycles (experimental)

## WHY CHOOSE HMAF?

- ✓ Over-the-top concepts
- ✓ State Of The Art Technology
- ✓ Smooth and refined
- ✓ Someone is approving this
- ✓ From our minds to your class

## Optional Add-ons

- **WheelCage™** External Wheel Adapter – Four caster wheels added outside the suit to create forward motion (not yet tested with stairs).
- **CrutchMount™** Insert System – For wielding crutches like chemical-resistant battle staves.
- ADA-Compliant Suit Ramp – Requires three parking spaces and 20 minutes to deploy.

**“IT’S LIKE HAVING A LOYAL  
LITTLE HELPER TONGUE JUST  
FOR YOUR FACE SHIELD.  
HORRIFYING. BUT EFFECTIVE.”  
– RICO D., TECHNICIAN &  
RELUCTANT FAN**

## ABOUT US:

HMAF is a Subsidiary of The Haz Mat Guys, Inc. bringing you the most badass ideas, concepts and products you'll be asking yourself, why hasn't someone thought of this already?
